BEST ELECTRONICS

Throughout this New Best Electronics Catalog you will find certain products labeled *"The Best"* series. Each of these products/replacement parts have been thoroughly tested by Best Electronics and found to exceed in quality and construction compared to stock products/replacement parts. One of the many features that puts the *"The Best"* series above any comparable or stock products is our long term support for *"The Best"* series with complete "Off The Shelf" replacement parts from anyone! Although you may not need any replacement parts for *"The Best"* series in the near future, you can rest assured that they will be there for you years down the line when comparable products/companies have gone out of business or do not support you with replacement parts or technical support!

The following ST RAM/Memory Upgrade Boards are the only RAM Upgrade Boards on the Atari market to get our *"The Best"* series rating based on their performance.

520ST/520STFM/1040ST New World I 2/2.5/4 Meg RAM Upgrade Board. The New World upgrade board is now Exclusively manufactured and distributed by Best Electronics. This upgrade board is one of the oldest ST RAM upgrades Still on the market (over 6 years) with a proven track record of thousands and thousands of happy Atari users! The installation of this upgrade (soldering in, the BEST way) should be done by experienced computer technician! Once installed the Long Term stability of this upgrade far out weights the minor problem of soldering in this upgrade! The New World upgrade board uses (not supplied) the low cost 1 Meg RAM chips, (1 Meg × 1, 18 pin dip package, 80-120 ns) one or two banks of 16 each. CB101109....................................139.00

520ST/520STFM/1040ST/Mega 2 New World II 2/2.5/4 Meg SIMM RAM Upgrade Board. The New World II

upgrade board is Exclusively manufactured and distributed by Best Electronics. This RAM upgrade board uses State of the Art plug in SIMM RAM modules. Our vast technical knowledge gained on manufacturing and selling of the New World I RAM upgrade board has been applied to the Design and Manufacture of this new upgrade board. The installation of this upgrade (soldering in, the BEST way) should be done by experienced computer technician! Once installed the Long Term stability of this upgrade, Small size and the ease of upgrading (plug in SIMM RAM modules) far out weighs the minor problem of soldering in this upgrade! The New World II upgrade board uses (not supplied) the low cost 1 Meg × 8-80ns SIMM modules. CB101935.....................................129.00

Goldstar SC1224, SM124 and Samsung SC1224 3 ft monitor extension cable (13 pin M to 13 pin F) CB101294-3 ....25.00

Monitor extension cable, 12ft CB101294-12.......................CALL
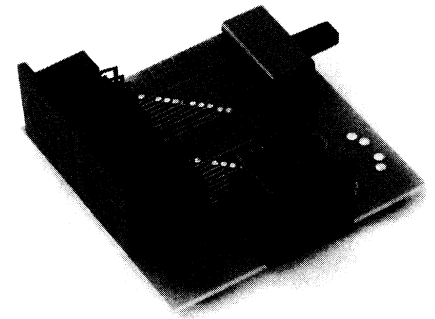

SC1224/SC124 Dual Monitor Switch Assembly (1 p.c. board (2" × 2") with A/B switch, 3 rt/angle ST 13 pin connectors (1 in 2 out). Optional 5 pin din monitor jack location (use part #C014388 Jack) included on the P.C. board for composite output (STs with internal modulators only). This switch assembly requires a fully wired (13 lead) monitor cable between the ST/Mega computer and switch assembly. CB101116.....................21.95

Plastic project box for above Monitor switch Assembly. Requires modifications to box CB101402....................6.00

JVC made PS3000 Color Monitor with built-in ST Disk Drive. Very limited release in the U.S.

Atari PSC3000 Power supply C070107..80.00

Best Tech Tip: If you are going to use a Multi-Sync or other type RGB monitor on your ST/Mega computer system, make sure your monitor will accept the following Atari ST/Mega TTL level output of 1 Volt Peak to Peak (P-P) Video (R.G.B.) and 1 Volt P-P Audio signal, Horizontal/Vertical synchronization and Scan frequency of: 15.75 KHz Horizontal, 60 Hz Vertical for color, 35.7 KHz Horizontal, 71.2 Hz Vertical for monochrome.

ЛATARI®

One of the few 1450XLDs ever made.

600XL/800XL/65XE/130XE Turboss
Replacement/Upgrade Operating System Chip by Integrated Logic Systems.
Some of the programming and end user
features: switchable between standard
Atari XL/XE OS (Licensed from Atari)
to TurBoss OS (switch and cable assembly included on plug-in 28 pin
module), over 50% faster screen display/scroll list speed in Graphics Mode
0, onboard key handler allows you to
turn off the Antic chip and also lock
out your keyboard, real-time monitor
function lets you actively monitor
IOCZ/the Device Control Block and
Stack, faster file transfers with reduced
bit loss, high speed math routine which
speeds up calculations by 200-400%

P.C. Board
RIGHT: CB101411 Ape Link Kit Components

Digital Devices Ape Link P.C. Board (2¼" × 25⁄8") Adds up to two extra 13-pin SI0 connectors to your Atari daisy chain, with optional SI0 cable mounting (one extra SI0 w/o cable) Used when devices like Atari 410 program recorders, XMM301/SX212 modems, Direct connect printer cables or other devices that end the Atari SIO (13 pin) daisy chain. CB101047 ... 10.00

Ape Link P.C. Board with three 13 pin male SIO connector installed (less case) CB101921 .... 21.00

Ape Link Kit; includes 1 PC Board, 3 SI0 connectors, 1 black plastic case w/screws. (Kit requires soldering, modifications to case: 1ea extra SIO rectangle opening and/or 1ea ⅜" hole with optional SI0 cable out mounting.) CB101411 .... 21.00

Two assembled samples of the three versions of CB101411 Ape Link Kit.

Options:

1½ foot cable with one 13-pin SI0 connector attached CB101281 .... 4.00

3 foot cable with one 13-pin SI0 connector attached CB101399 .... 6.00

Black plastic case w/screws (3.75" × 2.65" × 1.5") CB101359 .... 6.00

4 Black mini feet for case CB101397 .... 1.50

13-pin SI0 Connector CO12995 .... 2.50

1020 Printer Driver program (8 bit Atari computers) for the Print Shop program, (not included) allows you to print out Print Shop Graphics (one color at a time) on the Atari 1020 printer CB101729 ....14.95

> **Best Tip**
> To extend the life of your 1020 plotter pins, when not in use, remove the 1020 pens from the 1020 printer/plotter and put the pens back into the clear protective tube and reseal with end caps. Ink used inside of the pens has a volatile base and will evaporate when exposed to air for any length of time.

Direct Connect Printer Cable for Atari
400*/800/XL*(not 1200XL)/XE/XE
Game machine Computers. This inter-
face cable has one Atari 13 pin cable
end, box in the middle with Electronics
+ an extra 13 pin male connector (Does
not break the Atari Chain) and
Centronics 36 Pin Male connector on
the other end. This low cost printer
cable allows Atari owners to DIRECT-
LY connect Non-Atari printers** to
their 8 bit system without the Atari 850
Interface or ICD PR Connection
devices! CB101258......................49.00
* 400 or 600XL computers should have
64K memory to use Atariwriter(C) or
Atariwriter Plus (D) Word processors!
** Recommended that you use the
Printer driver program below
(CB101468) to get full features out of
your Non-Atari printer with the
original Atariwriter cartridge.
ICD Printer Connection like above
direct connector printer cable but does
NOT have extra 13 pin connector
(Not for 1200XL) CB101927 ....39.95
MPP 1100 Direct Connect printer cable
for 400/800 computers only

Atariwriter (Original Cartridge) Printer
Driver Program By Gary Furr. (D) If
you do not have an Atari made printer,
this Excellent disk based program lets
you to take full advantage of your
specific printer capabilities. Allows
you to use ONE of 49 different current
Brands/89 Models of Dot Matrix, Ink
Jet and Letter Quality printers on your
Atari 8 bit system. This program will
give you the features that are built into
the Atariwriter Program for Atari
printers but on Non-Atari printers. Just
some of the Brands of printers this
driver program supports, Okidata,
Panasonic, Epson, Star, Brother, Silver
Reed and more! CALL for other
Brands/models covered

DOMESTIC SHIPPING INFORMATION: Our terms are Money Orders/Certified Checks for first-time orders, personal checks for subsequent orders (No credit card sales). The Best way to receive your order is to have it shipped UPS C.O.D. ($3.75*). All UPS orders under $100 in value are insured by UPS at no extra charge, orders over $100.00 value are insured by Best Electronics for you through UPS at 30 cents per $100.00 value, example $100.01 – $200.00 = 30 cents, $200.01– $300.00 = 60 cents and so on. Most phone orders are shipped within 24 hours! On prepaid/Mail orders (See Order Forms) include the Ship To Address, ZIP Code, an Area Code/Day + Night Phone Numbers and the appropriate Shipping Charges, if any. The lack of these items could mean a long delay in processing your prepaid/Mail order. Best Electronics pays the shipping charges (UPS Ground) on orders of normally stocked items (this catalog) totaling $25.00 or more within the Continental United States. Shipping Charges are NOT prepaid on sale items, sale specials, repairs, dealer sales or orders over 8 lbs. in weight. Minimum retail sale is $12.00. Minimum Dealer sale is $24.00.

*Based on UPS Rates Effective 2-18-91 **Subject to change without notice.**

Orders that are sent UPS COD and then refused, canceled or purposely not available for three UPS delivery attempts will have a minimum $15.00 service charge added to their Name/account or may be permanently DROPPED from our Atari mailing list at our discretion. If we receive a UPS COD package back without hearing from you, we assume the order was refused/canceled!

Checks returned by the bank are subject to a Minimum $15.00 service charge per occurrence. If you have a problem with checks/banks have us specify "Cash Only" on your COD order.

Availability of many items in this catalog is subject to manufacturer's or our supplier's ability to deliver on time. **Prices on all items are subject to change without notice.** All items that are Out of Stock (O/S) at time of shipping of your order may be re-ordered at a later date. We do not maintain a backorder list! Items ordered that are marked Not Available (N/A) are items that are not Stocked, No longer Available or discontinued. On prepaid Mail orders, items that are under $5.00 value/total that are O/S or N/A will be issued a credit toward future orders.

→We suggest you call us for the current stock levels of items you are ordering!

→California residents add your appropriate 6, 6½, or 7% sales tax. We ship U.P.S. Brown Label (ground) (freight free orders) and Blue Label (2-3 day air). U.S. Mail, Express Mail or U.P.S. Next Day Air shipments are available.

SHIPPING INSTRUCTIONS OUTSIDE CONTINENTAL U.S.A./Foreign Orders

All prices in this catalog are based on U.S. Dollar amounts. All orders shipped out of the Continental United States, except Hawiaii, Alaska or Puerto Rico, must be pre-paid in advance in U.S. funds, including shipping charges. U.S. Postal Money Orders, Canadian Postal Money Orders in U.S. funds, International Bank Cashier's Checks or International Money Orders must be drawn on a U.S. bank in U.S. funds; if not, add minimum $5.00 U.S. bank service charge. All other forms of payment, including Bank Transfers (TT) are by pre-arrangement only! If you would like your order insured, please include extra U.S. funds. An International FAX number is available for quotations, stock availability checks and shipping charge inquiries. Please contact us for details.

Free Best Electronics Service!

Before you buy any Atari hardware item, upgrade, new product or attempt a repair (please no ST software questions) give us a call and ask our opinion/help! Even if we do not carry that product! We will give you our honest opinion about that product/repair (and possibly direct you to the right source), if we have one, based on our 10 years experience with the Atari Market, daily feedback from our Atari user base of thousands and thousands of retail Atari customers and our instant feedback from our extensive Atari dealer network! Make INFORMED buying/repair decisions based on *real world information* about your Atari products, not blind, in-the-dark chances!

This Rev. 9 Catalog Text was processed using Atari 1$\underline{ST}$ Word Word Processor and Order Forms and Return Card was produced using The Atari Calamus Desktop Publishing Program!
